

First Year Junior Science Trip: Winchester Science Centre

Dear Parents/Guardians,

This is just a gentle reminder that your child will be attending Winchester Science Centre for the First Year Junior Science trip on **Thursday 9 June 2022**. They will be placed in a small-supervised group and will be taking part in hands-on activities in an explorer space workshop, experiencing various science busking experiments and given time to explore the general exhibits. More information about the centre can be found here <https://www.winchestersciencecentre.org/>. This will be a great opportunity for the students to learn more about space in preparation for the Astronomy topic.

There will be no charge for this trip as the cost is being met by the School. However, your child may want to bring a small amount of money to spend in the planetarium shop. Packed lunches will be provided, but please do ensure your child brings a water bottle in line with School policy.

We will be travelling to and from Winchester Science Centre by coach. The coach will be leaving School at **09:45** and will be returning to School at approximately **14:30** in time for the regular buses. As we are returning during the School day, all students will be required to return to School.

Students are allowed to wear sensible casual clothes and are advised to bring a rucksack to keep their packed lunches and water bottle in. They will also be expected to write so pen/pencil will be required and their iPad for a consolidation session back at school.

If you have any questions, please do not hesitate to contact me.

Yours sincerely,

Mrs J Collinson
